

MWDI's Annual Box & Kit Sale

January 23, 2012

As a service, MWDI is aggregating an order with its lumber purchase for public projects to provide wholesale pricing to private program sponsors. The box and kit pricing reflect MWDI's expected direct costs for lumber, shipping, cutting and outsourced assembly assuming we buy 1,100LF of wood. If the orders are lower than that, MWDI will advise of any modest price changes.

MWDI expects the purchaser to pickup the boxes and kits if other delivery arrangements can not be coordinated. This has generally not been an issue.

WD box kits are approximately 22" tall x 9 1/4" wide x 3/4" thick. BB box kits are made from 6" nominal width boards. Lumber is rough cut one side, kiln dried cypress supplied from South Carolina.

MWDI's website, www.mwdi.net, has detailed assembly plans for these side door opening boxes as well as a link on the Home Page to obtain predator guards from MDWFA at reasonable pricing. Delivery / pickup of guards must be coordinated directly with MDWFA.
